

Physics of Accelerators and Related Technology for International Students - PARTI 2017

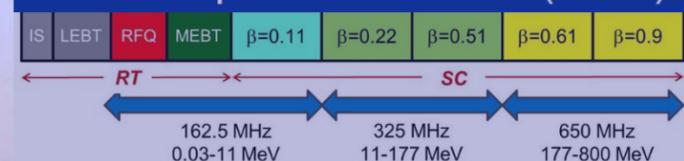

FAST Facility
Fermilab Accelerator Science and Technology Facility

Long-Baseline Neutrino Facility (LBNF)

Proton Improvement Plan-II (PIP-II)

Fermi National Accelerator Laboratory (located near Chicago, IL, USA) opens registration for the summer program internship in Physics of Accelerators and Related Technology for International Students (PARTI). This internship program has been developed to familiarize selected university students with opportunities at the frontier of scientific research in physics and technology of particle accelerators. The program is open to students of universities in Europe, majoring in Physics or Engineering. Deadline for applications is January, 9th, 2017 (see details on PARTI website).
