

Science, Technology, Engineering, & Mathematics Career Expo for High School Students

Fermilab's Wilson Hall, Batavia
Wednesday, April 22, 2015
5:30–8:30 PM

Come and join science, mathematics, engineering, and technology experts from a wide variety of careers.

- **Meet scientists, engineers, and technicians**
- **Ask career questions of the experts**
- **Ask experts about educational pathways leading to specific careers**
- **Discuss career fields with professional association representatives**
- **Attend panel discussions on career areas** (session details will be posted on the webpage)

The event is free; no registration is required. Parking is free and available on the west side of Wilson Hall. Overflow parking is available at the Lederman Science Center. Enter Wilson Hall on the ground or first floor.

For more information on the expo and directions to Fermilab, go to:

<http://ed.fnal.gov/programs/careerfair/>

The STEM Career Expo is a cooperative effort of Kane and DuPage county schools, hosted by Fermi National Accelerator Laboratory.
